CME

The CME and doctors forum will be a platform for bridging care by bringing together intellectual minds from both sides of the ocean under one canopy. The cardiovascular diseases and related chronic diseases such as dyslipidemia, metabolic syndrome and diabetes have emerged as the major diseases both in the native and ex-patriate Indian population. The forum will focus on the scope of the problem, discuss preventive and treatment recommendations tailored to this at risk population and delve into emerging research data. We also plan to host a complementary medicine session that will be of value to practitioners and general public alike. In addition to involving the younger medical talent, the forum for the first time plans to embark on a live session in real time with audiences in India and make a hallmark move to promote parallel dissemination between medical and business forums. Don't miss this unique opportunity to network and gain a deeper understanding toward betterment of the care we deliver.

Business Forum

Summit NAVIKA 2013 Business forum provides a unique environment to exchange innovative ideas, nurture entrepreneurship, and to promote collaborative discussions between Karnataka and the US business leaders. The forum allows attendees to explore three parallel tracks along with key note speeches from world-renowned business leaders and academicians. You will get a chance to form alliances during our many networking breaks. Details of these 3 tracks to follow: Youth Forum | Life Sciences | Technology
